

Columbarium & Sacred Garden

A Place to Remember & Honor Those We Love

Catonsville Presbyterian Church has completed the Columbarium and its surrounding Sacred Space Garden. Both are located along Beechwood Ave. The Columbarium provides 80 double niches for the cremated remains of CPC members and their extended family. The Sacred Space Garden is in front of the Columbarium. This area features landscaping, benches, and ambient lighting creating a peaceful space for contemplation and remembering.

Purchasing Engraved Pavers

The congregation is invited to participate in creating the Sacred Garden by purchasing engraved pavers. You may purchase a paver honoring living loved ones or remembering those who are no longer with us. You may also purchase a paver to lift up an appropriate text which could feature a Bible verse, poem, or quotation. If you have any questions about whether your text is within appropriate guidelines, please feel free to contact us. Pavers cost \$170 each. Shipping and installation are included.

The pavers are 8" x 8" grey concrete that can be engraved with up to six lines of writing (20 characters per line, counting spaces and punctuation). The actual writing on the pavers should reflect the grace and dignity of the Sacred Garden. Paver text will be reviewed and approved prior to the engraving. Additional paver orders for the Sacred Garden will be encouraged, welcomed, and added periodically as needed. That will be accomplished by removing plain pavers and inserting the new ones.

Sacred Space Garden Paver Order Form

You can fill out the form below OR you can layout your own paver to visualize how it will look by visiting to Polar Engraving at www.polarengraving.com and selecting Services then choose Virtual Brick Creator. Select 8 by 8, text only (no logo), brick color number 7 gray, any font. You will no longer be able to add letters when you reach the maximum number of 20 spaces and letters on each line. All the garden pavers will be printed using Optima font but this is not an option when you try to visualize your paver on the website. As a double check on accuracy, you may include a printed copy of your Virtual Brick Creator paver if you wish.
